THE PROBLEM

Your Growth Shouldn't Be Held Back by Your Technology.

- GoHighLevel becomes complicated to manage.
- Manual processes consume valuable time.
- Leads fall through the cracks.
- Follow-up isn't consistent.
- Funnels don't convert properly.
- CRM pipelines aren't configured correctly.
- Automations break or aren't connected properly.
- Multiple tools don't communicate with each other.
- Internal teams don't have the time or expertise to build everything correctly.

GHL Agency Hub builds and connects the system, so the technology stops being the bottleneck.

WHAT WE DO

We Turn GoHighLevel Into a Working Business System.

We don't simply “set up software.” We design and implement the systems that connect every stage of how your business wins and keeps customers.

01 Leads → 02 CRM → 03 Communication → 04 Automation

05 Booking → 06 Sales → 07 Follow-Up → 08 Reporting

The goal is reliable infrastructure that works behind the scenes and makes the business easier to operate.

GOHIGHLEVEL SETUP

GoHighLevel Setup & Implementation

We configure GoHighLevel so your account is structured correctly from the beginning and ready to operate.

- Account configuration
- Calendars
- Business information
- Launch-ready configuration
- Settings and users
- Domains
- Core account structure

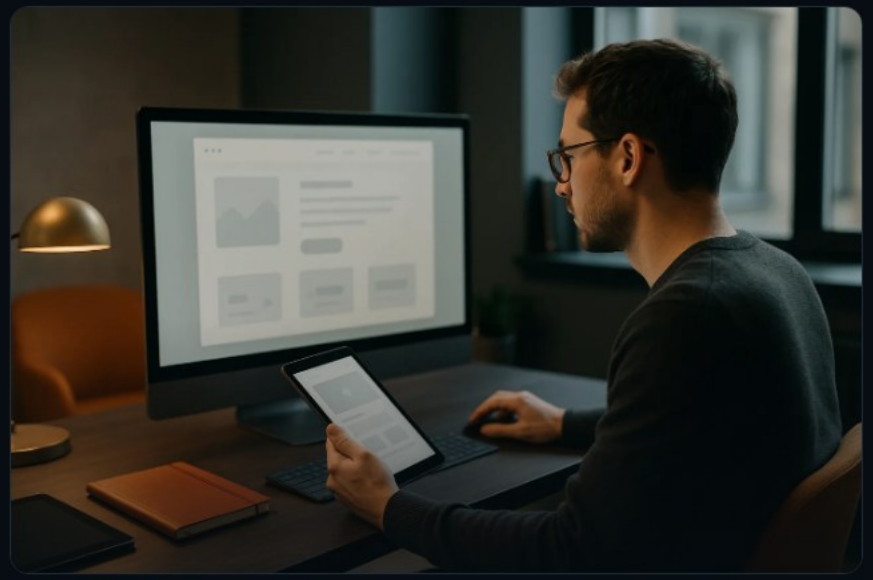

OUTCOME A properly configured GoHighLevel environment that's ready for your team and customers.

FUNNELS & WEBSITES

Funnels & Websites That Turn Traffic Into Customers

We build conversion-focused websites and funnels directly inside GoHighLevel, connected to your CRM from day one.

- Landing pages
- Lead-generation funnels
- Appointment pages
- Mobile optimization
- Conversion-focused layouts
- Multi-page websites
- Forms
- Quote / request forms
- Tracking

OUTCOME **A professional digital experience designed to turn visitors into leads and customers.**

CRM & PIPELINES

CRM & Sales Pipeline Management

We structure the CRM around your actual sales process, so the pipeline reflects how you really sell.

- Custom pipelines
- Lead organization
- Opportunity management
- Sales team notifications
- Deal stages
- Contact management
- Automated stage movement
- Lead routing

OUTCOME Your team always knows where every lead is, what happens next, and who is responsible.

WORKFLOWS & AUTOMATIONS

Automations That Keep Your Business Moving

Repetitive work handled automatically, so follow-up happens fast and the same way every time.

TRIGGER
A lead comes in
Form, landing page, ad or a missed call

→

SECONDS LATER
Instant response
A text and an email, in your voice

→

NOTIFY
Your team is told
The right person, with the lead's details

→

FOLLOW UP
Sequence runs
Until they reply or book

BOOK
Appointment booked
Calendar and pipeline updated together

→

REMIND
Reminders sent
Confirmation, then reminders by text and email

→

AFTER
Next step follows
Proposal, no-show recovery or re-engagement

→

REVIEW
Review requested
At the right moment, followed up if ignored

NEW-LEAD FOLLOW-UP · APPOINTMENT REMINDERS · MISSED-CALL TEXT BACK · LEAD NURTURING · INTERNAL NOTIFICATIONS · LEAD ASSIGNMENT · PIPELINE AUTOMATION · REVIEW REQUESTS · RE-ENGAGEMENT CAMPAIGNS · CUSTOMER FOLLOW-UP · BOOKING WORKFLOWS

OUTCOME The goal isn't automation for the sake of automation. It's removing repetitive work while improving speed and consistency.

SNAPSHOTS & REPEATABLE SYSTEMS

Build Once. Deploy Again.

A snapshot is a complete GoHighLevel setup saved as a template, so a system that works can be rolled out again in minutes instead of rebuilt by hand.

- Reusable account structures
- Campaigns
- Forms
- Automations
- Pre-built workflows
- Pipelines
- Calendars
- Repeatable client setups

OUTCOME Turn successful systems into repeatable infrastructure that can be deployed across locations, teams, campaigns, or clients.

INTEGRATIONS

Connect the Tools Your Business Already Uses

We connect GoHighLevel with the rest of your technology stack, so information moves between systems without anyone re-typing it.

- Payment systems
- Webhooks
- Lead sources
- External applications
- Calendars
- Forms
- Communication tools
- Third-party platforms

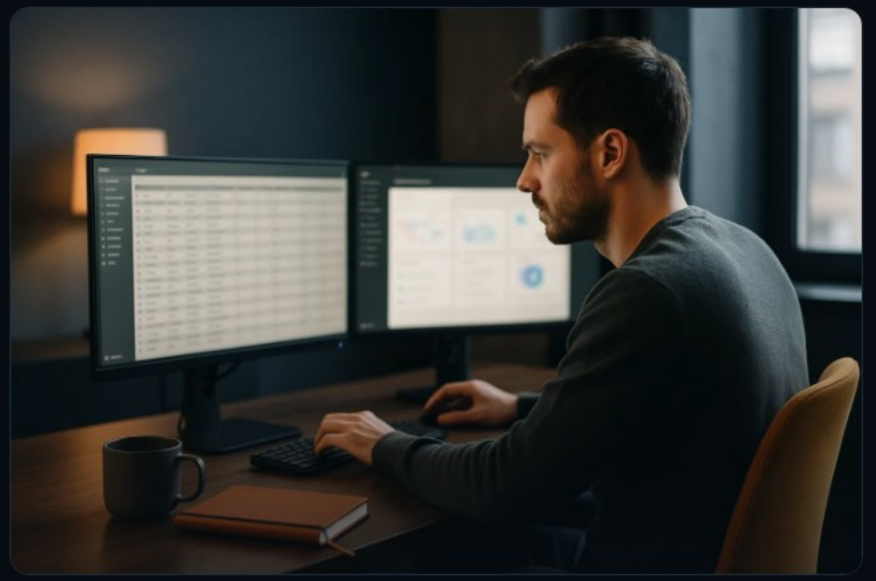

OUTCOME Your systems should work together instead of operating in disconnected silos.

MIGRATION & CLEANUP

Move, Rebuild, or Clean Up Your Existing System

Already on GoHighLevel? If your current setup is messy, outdated, or simply not working, we can turn it into a system your team can actually use.

- Platform migration
- Data organization
- Workflow cleanup
- Pipeline restructuring
- Implementation of a better structure
- Account migration
- CRM cleanup
- Automation troubleshooting
- Rebuilding broken systems

BEFORE

AFTER

✓ Contacts · ✓ Pipelines · ✓ Workflows · ✓ Calendars · ✓ Forms · ✓ Tags & fields · ✓ Integrations

OUTCOME **A clean, organized account built on a structure that your team can run and grow with.**

ONGOING SUPPORT

Your GHL System Doesn't Have to Be a One-Time Project

Businesses change, and the system should keep up. We stay on as your technology partner, not a one-time developer.

- Maintenance
- New automations
- CRM updates
- Optimization
- Technical support
- Fixes
- New funnels
- New integrations
- Additional builds

OUTCOME **A long-term partner who already knows your account, so every new request starts from understanding, not from scratch.**

WHY GHL AGENCY HUB

More Than a Freelancer. More Than a Software Setup.

GoHighLevel Specialists

Our team focuses specifically on building systems inside GoHighLevel.

Structured Process

Projects move through a defined process from scope to build to QA to delivery.

Internal QA

Every build goes through a pre-delivery quality check.

Managed Fulfillment

You aren't left trying to figure everything out yourself. We manage the build from start to finish.

Scalable Capacity

We can support individual projects as well as larger implementation workloads.

Behind-the-Scenes Expertise

Where it helps, we work as an extension of your existing team or agency.

OUR 8-POINT PRE-DELIVERY QA

- ✓ Forms submit and map correctly
- ✓ Pipelines move correctly
- ✓ Automations trigger
- ✓ Emails send and render
- ✓ SMS sends correctly
- ✓ Calendars book and sync
- ✓ Mobile rendering checked
- ✓ Integrations verified

HOW IT WORKS

Simple From Start to Finish

01

Discover

We understand your goals, existing systems, and requirements.

02

Scope

We define what needs to be built and establish the project timeline.

03

Build

Our team implements the system inside GoHighLevel.

04

QA & Review

We test the system, identify issues, and give you the opportunity to review.

05

Launch & Support

The completed system goes live, with ongoing support available when needed.

THE OUTCOME

What You Get

- A properly structured GoHighLevel account
- Professional funnels and websites
- Organized CRM and pipelines
- Reliable automations
- Connected systems
- Tested integrations
- Less manual work
- Better lead follow-up
- A more scalable operating system

You focus on the business. We make the technology work.
